ACKNOWLEDGEMENT

Sincere thanks to the following for their valued assistance rendered during the development of Chifwerekete Block Management Plan , Group Village Headman [GVH] Chifwerekete ,Traditional Authority [TA] Nthondo and all village heads and members of Chifwerekete Block.

Our gratitudes are extended to Ntchisi District Forestry Office team of Miss T. Mboma, A.J. Palani, Miss J. Kayira, S.C Goneta, A. Webson, G. K Chiwaya, Y. Mndefu, and A. Ngoza for technical support. Sincere thanks are also extended to the Regional Forestry Technical Team such as; the Improved Forest Management for Sustainable Livelihood Programme[IFMSLP] Technical Advisor,Mr RWS Nyirenda ,the IFMSLP Regional coordinator, Mr. T. S. Ketulo and other regional staff especially Mrs T.Mvula and Mrs M. Kawalewale for their timely advice and technical support in the development of Chifwerekete Block Management Plan.

Our donor partner, the European Union [EU] deserves special thanks for funding the IFMSLP whose activities include the development and implementation of this forest management plan.

1.0 INTRODUCTION

This document is the summary of a process of joint discussions, analysis, consultation, negotiation and planning by the community of Group Village Head [G.V.H.] Chifwelekete, Traditional Authority [T.A.] Nthondo, Ntchisi District.

Facilitation in the development of this plan was undertaken by forestry extension workers from Department of Forestry [DoF]. This approach was adopted with the aim of empowering people of GVH Chifwelekete to make decisions and take responsibility for and promote collective action for protection, management and sustainable utilisation of their forest management block. This approach is in line with the Malawi National Forestry Policy of 1996, which recognises the need for communities to be given a greater role in the management of forests and access to forest resources both on public and on customary land.

The output of the process of planning, consultation and negotiation is this Block Management Plan which was agreed by key stakeholders of Chifwelekete area. The process was participatory with the aim of empowering people in a transparent and equity based approach.

The plan includes resource use rules which are locally relevant and locally enforceable to assist in the protection, sustainable management and equitable sharing of forest benefits by the Chifwelekete communities both the present and future.

Fig 1 Map of Chifwelekete Block

2.0 MANAGING AUTHORITY

This Management Plan shall be managed by Chifwelekete Block Management committee with support from the Forestry Department.

The Block Committee had been registered as a Local Forest Organisation and it is an official institution with legal mandate to ensure that the Block Management plan is followed. There are three villages within Chifwelekete GVH as follows Chifwelekete 1, Chifwelekete 2 and Mwesambuzi. The total number of households in G.V.H Chifwelekete is 51 and these are the people who are expected to co-manage Chifwelekete Block with assistance from DoF.

3.0 FOREST DESCRIPTION

3.1. General Description

Chifwelekete Block is located 13 kms east of Ntchisi Boma and is part of Ntchisi state owned forest reserve. The size of the block is 446.2 ha. It is located in the area of Group Village Head Chifwelekete, Traditional Authority Nthondo in Ntchisi District.

3.1.1 Vegetation

The forest block is dominated by *Brachystegia* species locally known as *Mombo*, *Sanga* followed by *Julbernardia species*. Other tree species which are also available include; *Msenga*, *nsuku*, *kadale*, *katope*, *katope*, *mbawa*, *nkulasinga*, *ntukumphako*, *ntanthamphete*, *mbwabwa*, *nkulo*, *kasokolowe*, *mmbanga*, *chiyere*.

3.1.2 Soils

Loam is the type of soil dominant in Chifwelekete Block.

3.2 Boundary

To the west, Dwazi river separates the block from customary land while to the north it is Kampongozi river which marks boundary with Nyanja block. To the south, Chasolo river separates the block from Phanda block while other areas painted trees and rocks act as boundaries.

3.3 Tenure

Chifwelekete Block is located on public land in Ntchisi Forest Reserve. Under the co management Government and local communities will have shared forest management responsibilities as well as benefit sharing arrangements for the block. Government will still maintain custody of the reserve while relevant communities shall have the user rights under a signed comanagement agreement.

3.4 Forest users

People from GVHs Chifwelekete are primary users of the resources from Chifwelekete Block. All the villages under Chifwelekete Block will have the right to

collect or harvest forest produce from the block. The communities will have to access resources from this block through a Block Management Committee (BMC) which will be responsible for issuing user permits according to the type of forest products to be harvested /collected.

3.5 Main uses

The block will be accessed by all relevant forest users who, under a management agreement will be permitted to obtain in a sustainable manner both woody and non-woody forest products which include the following: fuel wood, timber, poles, fibre, medicinal products, mushroom, edible caterpillars, fruits, honey and thatch grass.

Apart from being a source of the above mentioned forest products; the block also serves as a catchment area for rivers and streams within the block and beyond. Grazing is permitted. Other ecological services include soil and water conservation mainly in steep slopes and river lines.

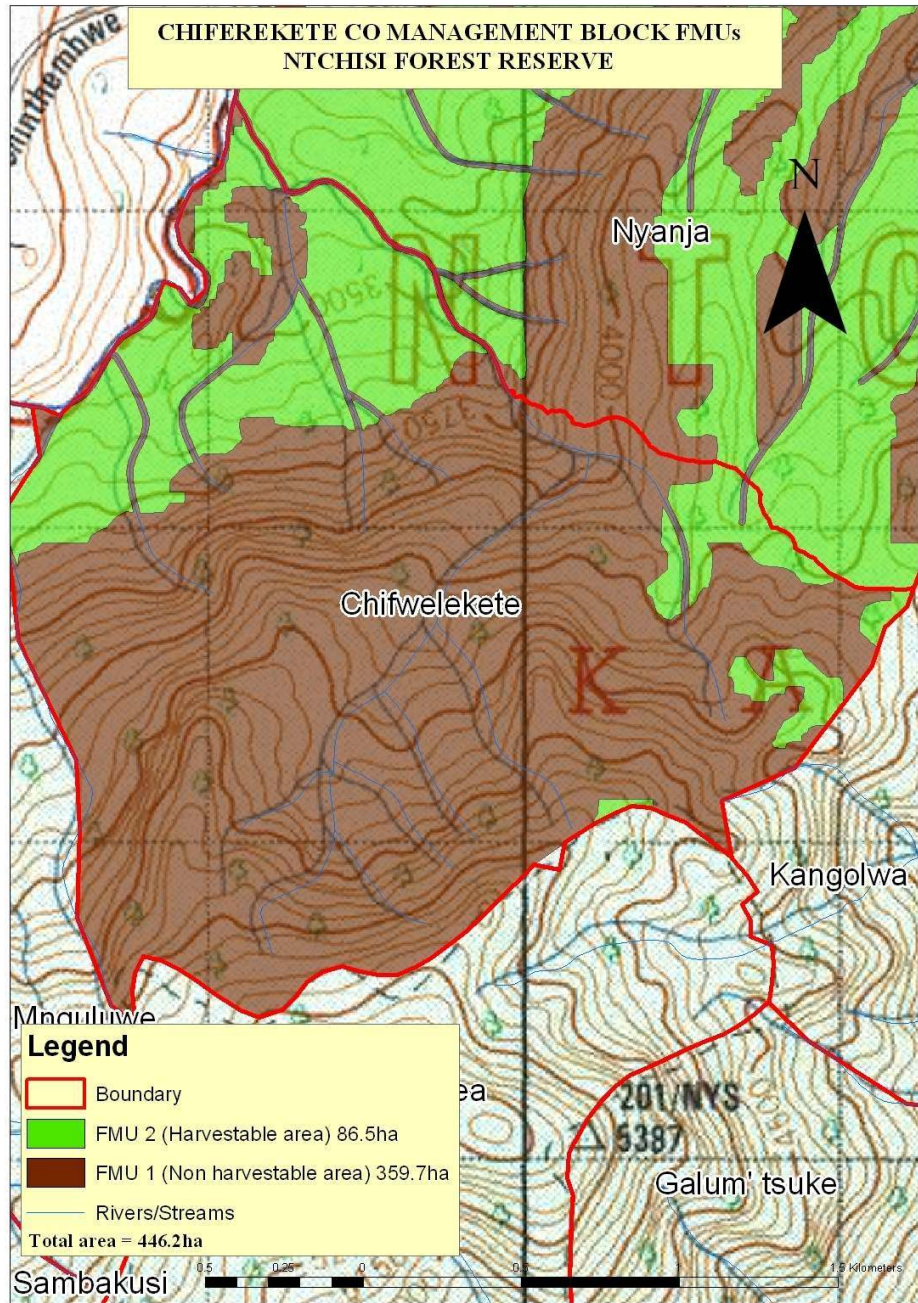

4. 0 FOREST MANAGEMENT UNITS

Chifwelekete Block has two distinct Forest management units- ; FMU 1 and FMU2. FMU 1 is classified as non-harvestable area while FMU 2 is harvestable area. Classification is based on the nature of the terrain and the fragility of the ecosystem in the area

FMU 1: This is an area within the Block which has been set aside for provision of other ecological services such as soil and water conservation. This area has steep slopes, river line areas and water catchment areas. It has a total area of 359.7 hectares. (Fig 2).

FMU 2: The remaining area for production purposes where harvesting of woody forest products and non woody products for domestic and commercial purposes shall be done and it covers an area of 86.5ha. (Fig 2)

Fig. 2 Map of Non Harvestable Area (FMU 1) and Harvestable Area (FMU 2)

4.1 Main objectives of Non Harvestable and Harvestable areas

4.1.1 Non harvestable areas

- To conserve and protect steep slopes and river line areas.
- To sustainably harvest non woody forest products such as; mushroom, medicine, fruits, thatch grass, edible caterpillars and honey for domestic use and for sale.

4.1.2 Harvestable areas

- To sustainably harvest and utilize woody products like; firewood, poles, timber, for domestic use and for sale.
- To sustainably harvest non woody forest products such as; mushroom, medicine, fruits, thatch grass, edible caterpillars and honey for domestic use and for sale.

4.2 Specific objectives of Non harvestable and Harvestable areas

4.2.1 Non harvestable areas

- To conserve river line vegetation so that water flow throughout the year for domestic use.
- To protect steep slopes.
- To sustainably harvest non woody forest products such as; mushroom, medicine, fruits, thatch grass, edible caterpillars and honey for domestic use and for sale.

4.2.2 Harvestable areas

- To conserve and protect steep slopes and river line areas.
- To sustainably harvest non woody forest products such as; mushroom, medicine, fruits, thatch grass, edible caterpillars and honey for domestic use and for sale.

5.0 MANAGEMENT OBJECTIVES

5.1 Overall objective

To jointly protect, manage and control the sustainable utilization of forest products and other ecological services in Chifwelekete Block with Forestry Department upon a signed co- management agreement.

5.2 Specific Objectives

- To sustainably harvest and utilize woody products like; firewood, poles, timber, for domestic use and for sale.
- To sustainably harvest non woody forest products such as; mushroom, medicine, fruits, thatch grass, edible caterpillars and honey for domestic use and for sale.
- To conserve and protect steep slopes and river line areas.

6.0 RESOURCE USE RULES

Resource rules below have been developed by the relevant community with technical support from Ntchisi District forest office team. They are intended to be used for participatory management of Chifwelekete Block with regards to forest resource protection, sustainable management, and utilization (table 6.1)

Table 6.1 Forest Resource rules for Chifwelekete Block
These where applicable relate to the whole Block.

No	Resource rules	Specification	Penalty
1.	No one is allowed to collect any forest produce from the Block without authority.	Collection of any forest produce will require a written authorization from the LFO.	Anyone found guilty of collecting forest produce without permit shall pay a fine of (2) two chickens or MK800.00
2.	No one is allowed to light or cause fire to light in the Block without authority.	Under control by BMC during controlled early burning.	Anyone found guilty of lighting or causing fire to light without permit shall pay a fine of (1) one goat or MK2,500.00
3.	No one is allowed to hunt in the Block.	Strictly prohibited	Anyone found guilty of hunting in the Block without authority shall have his / her weapons confiscated and pay a fine of six chickens or MK2,500.00
4	Anyone who has been permitted to access and use the Block must be accompanied by LFO member or Forest agents.	To be regulated and monitored by BMC	Anyone who accesses and uses the Block without being accompanied by LFO member or forest extension agents shall pay a fine of three chickens or MK1,200.00
5	No one is allowed to elect any building, a hut or cattle enclosure	Under strict control by the BMC	Anyone found guilty of electing any building, a hut or cattle enclosure without authority

	without authority from the LFO.		from the LFO shall pay a fine of two goats or MK5,000.00
6	No one is allowed to clear, break up land for cultivation in the Block without authority from the LFO.	Under strict control by the BMC.	Anyone found guilty of clearing, breaking up land for cultivation in the Block without authority from the LFO shall pay a fine of two goats or MK5,000.00
7	No one is allowed to alter or remove any beacon, mark or boundary within the Block without authority from LFO.	Under strict control by the BMC.	Anyone found guilty of removing any beacon, mark or boundary within the Block without authority from LFO shall pay a fine of two chickens or MK800.00
8	Every member of the BMC shall participate in all forestry activities for the Block i.e. controlled early burning, patrolling and establishment of annual harvesting coupes.	To be regulated and monitored by BMC	Anyone found guilty of refusing to participate in Block forest activities shall pay a fine of one chicken or MK400.00
9	No one is allowed to cut, fell, injure burn or remove any tree or any forest produce from the Block without authority from the LFO.	To be regulated and monitored by BMC	Anyone found guilty of cutting, felling, injuring, burning or removing any tree or any forest produce from the Block without authority from the LFO shall pay a fine of one goat or MK2,500.00

7.0 FOREST MANAGEMENT PRACTICES FOR CHIFWEREKETE BLOCK

PRACTICE	FMU
Total protection	FMU 1
Managing regenerants	FMU I AND II
Controlled early burning	FMU I AND II
Rotational harvesting of woody products (ABH)	FMU II

7.1 ACTION PLAN

The following activities shall be undertaken annually.

NO	Type of work	Resources	By who	Where	When
1	Conduct controlled early burning	- Watering canes - Fire	BMC and entire community	Chifwerekete block	July-August
2	Conduct meetings	-Minute book -Pens	BMC and entire community	Chifwelekete	March, June, September & December
3	Block re demarcation	Hy gross red signal paint, paint brushes, turpentine, GBS, batteries, Camera	BMC and entire community	Chifwelekete block	September
4	Coupe demarcation	- Field book - Pens - GPs	BMC and forestry staff	Chifwelekete block	September
5	Marking trees for retention	- Paint - Slashers - Brushes - Stationery	BMC and Forestry staff	Chifwerekete block	September
6	Issuing of permits for various forest products	-stationery	BMC and the DFO if its for commercial purpose.	Chifwelekete	January-December
7	Harvesting of woody products.	-Axes -Bow saws -Cross-cut saw -Measuring tape	BMC and Forestry Staff	Chifwelekete block	April-August.
8	Patrolling	-pen -field books -slashers -patrol book	BMC and forestry staff	Chifwelekete block	Ongoing

7.2 Patrolling Plan

Patrols will be conducted twice a week by people from the following villages in conjunction with DoF staff; Chifwelekete 1, Chifwelekete 2 and Mwesambuzi.

Table 7.2 Patrolling Plan

Activity	Who	When	Indicator
Checking illegal pit sawing.	Community and Forestry Department staff	Twice a week	No. of planks confiscated.
Checking illegal fuel wood collection.	Community and Forestry Department staff	Twice a week	Quantity of fuel wood confiscated.
Checking illegal charcoal production.	Community and Forestry Department staff	Twice a week	-No. of bags of charcoal confiscated -No. Of kiln destroyed - No. of cases booked
Checking illegal tree cutting for collection of edible caterpillars.	Community and Forestry Department staff	Twice a week	-No of tools confiscated -No of cases judged.

7.3 Monitoring and Evaluation Plan

Table 7.3 Monitoring and Evaluation Plan

What will be monitored	Methods for monitoring	Indicators	Who	When to monitor
Harvesting of wood products (Poles, firewood and hoe handles)	Checking on quantity area harvested against fee payment	Quantity of wood products harvested	BMC ,community and Forest Department staff	Soon after harvesting the products April - August
Harvesting of non-wood forest products	Checking number of permits against amount of money on receipts issued.	Quantity of non-wood products harvested	BMC, community and Forest Department staff	All year round
Controlled early burning	Observation	No. of Ha. Early burnt	BMC, community and Forest Department staff	July- August.

8.0 MANAGEMENT PLANS FOR EACH USE

Forest resource products in Chifwelekete Block will be harvested in coupes at a rotational age of 10 years in order to allow regeneration and sustainable use of the available forest resource.

Chifwelekete Forest Block has got a number of woody forest products, key to this being fuel wood.

8.1 Management plan for fuel wood

(a) **Forest Product** : Fuel wood – key product

(b) **Key Species** : *Pericorpsis angolensis, Faurea species, mtondo, kadale, Bridelia micrantha, mseza, mvukwe, syzigium cordatum, and msanga.*

(c) **Demand** : High

(d) **Supply** : High

(e) **Problems/issues** :

- Uncontrolled late fires
- Poor terrain in some areas which makes extraction difficult.
- Wanton cutting down of trees in matondo prone areas as a means of collection.
- Tree theft.

(f) **Management practices**

- Harvesting of green wood will be done in demarcated coupes only and marking will be done annually.
- Harvesting will take place between April and August.
- Controlled early burning shall be done annually.
- Commercial fuel wood shall be harvested from demarcated coupes only
- Minimum of 60 trees shall be left in each coupe to be harvested
- Trees shall be cut below 30cm above the ground.
- Selective harvesting shall be conducted in each harvestable coupe.

(g) Allowable area per year

The allowable annual harvest area is 8 hectares per annum based on a 10 year rotation. i.e. 4 annual coupes.

(h) Permits

Anyone is entitled to harvest if she/he so wishes as long as permission has been obtained from Block management committee. The District Forestry Officer shall counter sign for all commercial permits.

(i). Fees and royalties

Firewood shall attract fees as follows:

UNIT MEASURE	DOMESTIC PERMIT FEE (MK)	COMMERCIAL PERMIT FEE (MK)
Bicycle load	20	100
Head load	20	100
Oxcart load (cubic metre)	600	700

8.2 Management plan for Poles

(a) Forest Product : Poles

(b) Key Species : *Pericorpsis angolensis, Faurea species, mtondo, kadale, Bridelia micrantha, mseza, mvukwe, syzigium cordatum, and msanga.*

(c) Demand : High

(d) Supply : High

(e) Problems/issues :

- Uncontrolled late fires
- Wanton cutting down of trees in matondo prone areas as a means of collection.
- Tree theft.

(f) Management practices

- Harvesting of green wood will be done in demarcated coupes only and marking will be done annually.
- Harvesting will take place between April and August.
- Controlled early burning shall be done annually in order to reduce fire hazards.
- Poles shall be harvested from demarcated coupes only
- Minimum of 60 trees shall be left in each coupe to be harvested
- Trees shall be cut below 30cm above the ground.
- Selective harvesting shall be conducted in each harvestable coupe.

(g) Allowable area per year

The allowable annual harvest area is 8 hectares per annum based on a 10 year rotation. i.e. 4 annual coupes.

(h) Permits

Anyone is entitled to harvest if she/he so wishes as long as permission has been obtained from Block management committee. The District Forestry Officer shall counter sign for all commercial permits.

(i). Fees and royalties

Poles shall attract fees as follows:

UNIT MEASURE	DOMESTIC PERMIT FEE (MK)	COMMERCIAL PERMIT FEE (MK)
Roof beam (each)	30	50
Rafters (each)	10	40
Tobacco sticks (each)	10	25
Poles (each)	20	40

8.3 Management plan for Timber

(a)Forest Product : Timber

(b)Key Species : *Pericorpsis angolensis, Faurea species, Khaya anthotheca, Mseza.*

(c)Demand : High

(d)Supply : High

(e)Problems/issues :

- Uncontrolled late fires.
- Wanton cutting down of trees in matondo prone areas as a means of collection.
- Tree theft.

(f)Management practices

- Harvesting of green wood will be done in demarcated coupes only and marking will be done annually.
- Harvesting will take place between April and August.
- Controlled early burning shall be done annually in order to reduce fire hazards.
- Timber tree species shall be harvested from demarcated coupes only and shall not be less than 30cm in diameter at breast height.
- Minimum of 60 trees shall be left in each coupe to be harvested
- Trees shall be cut below 30cm above the ground.
- Selective harvesting shall be conducted in each harvestable coupe.

(g) Allowable area per year

The allowable annual harvest area is 8 hectares per annum based on a 10 year rotation. i.e. 4 annual coupes.

(h) Permits

Anyone is entitled to harvest if she/he so wishes as long as permission has been obtained from Block management committee. The District Forestry Officer shall counter sign for all commercial permits.

(i). Fees and royalties

Timber trees shall attract fees as follows:

UNIT MEASURE	DOMESTIC PERMIT FEE (MK)	COMMERCIAL PERMIT FEE (MK)
--------------	--------------------------	----------------------------

Timber tree (each)	5,000.00	6,500.00
---------------------------	-----------------	-----------------

8.4 Management Plan for Fruits

- a) **Forest Product** : Fruits
- b) **Key species** : *Msuku, mgonkhomwala, nthundu, nthudza, kasokolowe, yembeyembe, mviru, mtowo.*
- c) **Demand** : High
- d) **Supply** : High
- e) **Problems/issues** : Cutting down of fruit trees.
Harmful bush fires.
- f) **Management practices**
- Every person shall obtain a permit from BMC for collection of fruits.
 - All fruit collectors shall possess a carrying basket.
 - Unnecessarily cutting down of fruit trees is prohibited.
 - Controlled early burning shall be conducted in order to reduce fire hazards.
- g) **Allowable Area per year**
- Fruits shall be harvested throughout the block as long as long as there is permission is obtained from the BMC.
- h) **Permits**
- Fruits shall be collected without any fee as long as permission is obtained from the BMC
- i) **Fees and royalties**
- Free

8.5 Management Plan for Fibre

- (a) **Forest product** : Fibre ropes
- (b) **Key Species** : *Mombo, kamphoni and msenga.*
- (c) **Demand** : High
- (d) **Supply** : High
- (e) **Problems/Issue** : Harmful bush fires.
Un sustainable way of harvesting.

Management Practices:

- Every person shall obtain a permit from the BMC for collection of fibre.
- Fibre shall be obtained from tree branches and coppices.
- Areas which have regenerants shall be protected from fire.
- Controlled early burning shall be conducted in order to reduce fire hazards.

(g) Allowable quantity per year

A permit holder shall collect fibre as available.

(h) Permits

Anyone is entitled to obtain a permit from the BMC

(i) Fees and royalties: - Member of Chifwelekete Block Management

Committee shall pay MK100.00 while non members

Shall pay MK 200.00 for a permit.

8.6 Management Plan for Traditional Medicine

(a) Forest product : Traditional medicine

(b) Key Species : *Chitedzi cha msanga, mbwazi, msolo, thombodzi wa sanga, mbzoli, chisomo, mpandanjobvu, nafungwe, nkangamila, palijekanthu, ntondo, mseza, mlungalunga, thupa, mkulasinga, kawereka and mkumbatira.*

(c) Demand : High

(d) Supply : High

(e) Problems/Issue: Harmful bush fires,

Unsustainable way of collecting traditional medicine. i.e.

tree ring barking.

(f) Management Practices:

- Every person shall obtain a permit from the BMC for collection of medicine.
- Every person who obtains permission from BMC shall back fill the pits dug and shall obtain few plant parts and not ring barking the tree.
- Controlled early burning shall be conducted in order to reduce fire hazards.

(g) Allowable quantity per year

A permit holder shall collect traditional medicine as available.

(h) Permits

Anyone is entitled to collect traditional medicine from the block as long as he/she has BMC permit

(i) Fees and royalties:

- Medicine collected by members of Chifwelekete BMC shall be free of charge while non members shall pay a fee of MK250.00 for a permit.

8.7 Management plan for Mushroom

(a) Forest product : Mushroom

(b) Key Species : *Chisuku, ndelema, chiwere, mphofa, kasanza, chimphindi, kapasa, manyame, mathwe, utali, kanjawala, katerera and manda.*

(c) Demand : High

(d) Supply : High

(e) Problems/Issue: Destruction of mushroom by livestock
Bad harvesting techniques

(f) Management Practices:

- Every person shall obtain a permit from the BMC for mushroom collection
- Controlled early burning shall be conducted in order to reduce fire hazards.
- Every mushroom collector shall possess a carrying basket and shall be prohibited from using tree leaves.
- Controlled early burning shall be practiced.

(g) Allowable Quantity per year

- Mushroom shall be collected throughout the block.
- A permit holder shall collect mushroom as available.

(h) Permits

Anyone is entitled to collect mushroom from the block as long as there is BMC permit

(i) Fees and royalties:

- Members of Chifwelekete Block Management Committee shall collect mushroom for free of charge while non members shall collect at a fee of MK50.00 for a permit.

8.8 Management plan for Matondo

(a) Forest product : Matondo

(b) Key Species : *Mtondo, matondo chitsuto.*

(c) Demand : High

(d) Supply : High

(e) Problems/Issue : Harmful bush fires

Wanton cutting down of trees due to collection of edible Caterpillars.

(f) Management Practices:

- Every person shall obtain a permit from the BMC for matondo collection.
- Controlled early burning shall be conducted in order to reduce fire hazards.
- Only matured edible caterpillars that have fallen down shall be collected.
- Controlled early burning shall be done in order to reduce fire hazards.

(g) Allowable Quantity per year

- Matondo shall be collected throughout the block.
- A permit holder shall collect matondo as available.

(h)Permits

Anyone is entitled to collect matondo from the block as long as there is BMC permit.

(i) Fees and royalties:

- Members of Chifwelekete Block Management Committee shall collect matondo for free of charge while non members shall collect at a fee of MK250.00 for a permit.

8.9 Management plan for Honey

- (a) **Forest product** : Honey
- (b) **Key Species** : *Sanga*
- (c) **Demand** : High
- (d) **Supply** : Little
- (e) **Problems/Issue** : Harmful bush fires destroy bees and trees.
Unsustainable harvesting techniques.

(f) Management Practices:

- All bee keepers shall obtain permit from BMC and shall use Malawian Standard Top bar Hives.
- Controlled early burning shall be conducted in order to reduce fire hazards.
- All honey collectors shall use bee smokers during harvesting and not lighting fire.
- Bee hive installation shall be done in FMU 1 throughout the year.

(g) Allowable Quantity per year

- A permit holder shall install as many bee hives as he/she can.

(h)Permits

Anyone is entitled to practice bee keeping within the block as long as there is BMC permit.

(i) Fees and royalties:

- Members of Chifwelekete Block Management Committee shall pay MK300.00 per bee hive per annum.

9.0 BENEFIT SHARING ARRANGEMENT

Revenue realised from sales of produce from the block shall be distributed as outlined in table 9.1 below.

Table 9.1 Revenue Distribution

Revenue source level	Category of fees	Type of account	Signatories	Use of funds	Remarks
Forest Reserve Account	Permit Fees for Domestic use	Block Committee Account	Elected Block Committee Members	<ul style="list-style-type: none"> • Micro-credit to FBE groups • Forest management • Buying communal food items to be used during meetings. • Financing community development projects at VDC level. 	<p>-Forest Products harvested with permits issued by BMC</p> <p>- All the monies realised from forest products for domestic use to be deposited into this account.</p>
Forest reserve account	Permit Fees for commercial use	Block Committee Account	Elected Block Committee Members and countersigned by DFO	<ul style="list-style-type: none"> • Micro-credit to FBE groups • Forest management • Buying communal food items to be used during meetings. • Financing community development projects at VDC level. 	<p>-60% of revenue deposited into BMCA (Block Management Committee Account)</p> <p>-30% of the revenue into FDF (Forest Development Fund).</p> <p>-10% of the revenue into Local Forest Management Board (Account.</p>

					LFMBA)
--	--	--	--	--	--------

10 .0 FINANCIAL ISSUES

The Block Management Committee will issue product harvesting collection permits for different products at different prices, depending on whether they are for domestic or commercial use. Estimated domestic permit fee income and commercial permit fee income were calculated based on information provided during discussions with the BMC and later had small adjustments during feedback meeting with the whole community.

A number of estimated variables were used. The domestic and commercial fee rates set by the BMC and later endorsed by the wider community are shown in table 4.

The estimated annual income from domestic permit fee is MK252, 030.00 (7.8%) while that from commercial fee permit is MK2, 976,500.00

(92.2%) thus summing up to MK3, 228,530.00 (100%)

To generate the income through sustainable forest management various activities need to be done by the members of the community (BMC inclusive). These are carried out on the basis of voluntary inputs by community. The nominal costs of carrying out these activities have been calculated in order to off-set them against the permit fee income.

One is reminded that these costs will not be paid in cash.

ANNEX 1 TABLES

Table 1 SHOWING COST OF ACTIVITIES PER ANNUM (FOREST MANAGEMENT COST)

Operation	Work rate	Daily rate (MK)	Normal Cost (MK)
Controlled early burning	60 Person days	200	12,000.00
Patrolling	1280 Person days	150	192,000.00
Coupe demarcation and marking trees for retention	20 Person days	80	1,600.00
TOTAL			205,600.00

Annual Cash Flow

Based on the data from the previous tables, estimated annual cash flow for Chifwelekete Block is shown in Table 2. This assumes that under the co-management benefit sharing model which says that 100% of domestic permit fees be deposited into Block Account while 60% of commercial fees is to be deposited into the same Block Account . 30% of commercial permit fees will be deposited into Forest Development Fund Account held at National level while 10% will be deposited into LFMB Account held at district level.

Table 2: Showing Estimated Annual Cash flow for Chifwelekete Block

Block Management Committee Account	MK	% of Gross Income
Domestic Permit fees	252,030.00	7.8%
Commercial Permits fees	2,976,500.00	92.2%
Gross Income	3,228,530.00	100%
Less share to LFMB account (10% of commercial income)	297,650.00	10%
Less share to FD account (30% of commercial income)	892,950.00	30%
Balance	1,785,900.00	60%
Less costs of forest management (Labour inputs in kind)	205,600.00	
Effective Net Income	1,832,330.00	
Average net income per hectare	229,041.25	
Average income per household	35,928.04	

Table 3: Showing total supply in annual coupes.

11.0 CO-MANAGEMENT AGREEMENT

(Forestry Act, 1997 Section 25)

THIS AGREEMENT is made theday of.....

BETWEEN Director of Forestry, Ministry of Energy and Mines, hereinafter referred to as the Government, and local residents of village(s) of Traditional Authority.....and District

represented byas the Local Forest Organisation (herewith described as LFO) and known also as the block management committee.

The Government, hereby, wishes to make an agreement with the LFO to provide for co-management, in partnership with the Department of Forestry, of the forest resources ofblock offorest reserve, in order to promote sustainable forest management and the enhancement of the livelihoods of the forest adjacent communities.

NOW IT IS HEREBY AGREED as follows:

1. The Government shall upon being satisfied with transitional arrangements recognise the joint authority of the LFO to protect, manage, control and utilize sustainably the forest resource for the benefit of the local community of village(s).
2. The LFO accepts and undertakes to protect, manage, control and utilize sustainably the forest resource in accordance with terms and conditions stipulated in this agreement and annexed block co-management plan.

LFO OBLIGATIONS

3. In particular the Government gives authority to the LFO subject to the following conditions:
 - (a.) Forest resources shall be properly maintained and managed according to approved management techniques as set out in the annexed block Co-management Plan.
 - (b.) The LFO shall enforce the powers that have been devolved to them by the Government in the Forest Rules 2001, and in any subsequent rules, and as agreed in the LFO Registration Agreement.
 - (c.) The LFO shall protect, manage, control and utilize in a manner that maintains productivity, the forest resources within their jurisdiction and will issue permits and licences for forest produce primarily for the benefit of the local community and (in the event of surplus products becoming available) for their commercial sale under a license system, as set out in the annexed management plan.
 - (d.) To assist the District Forest Officer with the issuing of conveyance certificates, the local forest organisation may provide the necessary supporting

documentation (ownership certificate) to verify source and ownership of wood products under its control. It may also assist local private individuals with wood products in their locality verify ownership for applying for a conveyance certificate from the District Forest Officer.

- (e.) Benefits accruing from the forest resource shall be equitably utilized by the community in accordance with the benefit sharing arrangements set out in the annexed management plan and LFO constitution
- (f.) Revenue accruing from the forest resource shall be equitably utilized by the community in accordance with the LFO Constitution and as per agreements reached at general assemblies of the LFO
- (g.) 10% of the share of revenue accruing from the issue of commercial harvesting permits and licenses (i.e. those permits and licenses not issued for domestic or subsistence purposes) shall be deposited into the account of the Local Forest Management Board ofForest Reserve, with transfers being made on a quarterly basis
- (h.) 30% of the share of revenue accruing from the issue of commercial harvesting permits and licenses (i.e. those permits and licenses not issued for domestic or subsistence purposes) shall be deposited into the Forest Development Fund Account Number 1 with such transfers being made on a quarterly basis.
- (i.) It is expected that 60% of the funds available to the LFO after sharing the proportions specified in (g) and (h) will be utilised by the LFO for the purposes of forest development, management and operating costs. This includes utilisation of the funds inside and outside the area of the co-management block.
- (j.) The LFO shall make accessible records of accounts and licenses issued to the Director of Forestry or his/her representative, the District Commissioner or his/her representative upon receiving notification from the Director of Forestry or District Commissioner.
- (k.) The LFO shall represent and be accountable to the community and operate in accordance with the agreed constitution.

FORESTRY DEPARTMENT OBLIGATIONS

- 4. In particular the District Forestry Officer and his delegated representatives, shall;
 - (a.) Provide technical expertise to support the joint implementation with the LFO and the timely revision of the attached block co-management plan
 - (b.) Advise and assist with monitoring local accountability mechanisms including, conduct of meetings, elections, by-elections, record keeping, financial accounting, and reporting.
 - (c.) Provide a basic set of office resources for the LFO (on signature of this agreement) comprising cash books; minute books; duplicate license forms; headed paper and an official LFO stamp or unique mark, plus other necessary items in order to support the set-up of a transparent and well documented forest management and local licensing system. It is anticipated that the LFO will take over purchasing these items after collecting revenue.
 - (d.) Assist the coordination of forest law enforcement activities between the LFO, traditional Leaders, local community policing forums, local police officers and the District Magistrate in accordance with annexed co-management plan.

- (e.) With the LFO jointly monitor the block demarcated in the co-management plan to ensure management is in accordance with this Agreement and in accordance with Standards & Guidelines for Participatory Forestry in Malawi.
- (f.) Jointly with the LFO countersign any permits and licenses being for the commercial utilization and harvesting of forest products (non-domestic use) in accordance with block co-management plan
- (g.) In line with licensing procedures issue conveyance certificates against verified documentation to ensure legal transportation of forest products.
- (h.) Provide in collaboration with other partners, legal, organizational, marketing and other forms of support to the LFO as appropriate.
- (i.) Organise in collaboration with other partners, relevant training courses to enhance organizational, technical and management capacity of Local Forest Boards, LFO, traditional authorities and other members of the community.
- (j.) Recognize and actively support the protection and policing measures taken by the FMB, LFO and the community in accordance with the Forest Act, 1997, Forest Rules 2001, and Local Forest Organization Registration Agreement.

COMMENCEMENT, DURATION AND TERMINATION

- 5. This Agreement shall come into effect when signed by the Director of Forestry, representatives of the parties, and shall be binding indefinitely subject to clauses 6 and 9 below.
- 6. The Director of Forestry shall have the right to terminate this agreement and revoke authority to protect, manage, control and utilise forest resources, in any of the following events;
 - negligence or failure to protect, manage and control the co-management block.
 - if the LFO commits any serious breach of this agreement.
- 7. The powers stipulated in clause 6 above, shall not be exercised unless the Director of Forestry has tried all efforts to resolve or correct the situation amicably.
- 8. In cautioning the local community the Director of Forestry shall cite the shortcomings and remedies giving the period within which they should be addressed.
- 9. The LFO may terminate this agreement at any time by giving notice of not less than 8 weeks, in any of the following events;
 - if there is serious breach of this agreement.
 - if for any reason the community finds itself unable or unwilling to continue with the activities of the designated co-management block.
- 10. In the event of notice of termination, LFO shall be under obligation to ensure that the forest area is protected until a Caretaker Committee or Government has assumed authority over the block.

DEMARCATIION AND BOUNDARY

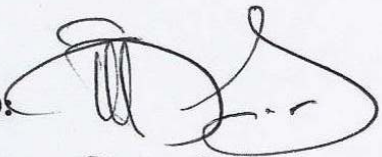

11. Division or delineation of forest areas shall be as displayed on the sketch map forming part of the Management Plan annexed to this Co-management Agreement.

DISPUTES

12. In the event of any dispute arising under the Forestry Management Agreement, the matter shall be referred to the Minister Responsible. If any party is dissatisfied with the decision passed by the Minister he/she may apply for a judicial review to the High Court.
