PROJECT BRIEF

My City, My Space.

January, 2021 – March, 2022

Center for Environmental Policy and Advocacy (CEPA) is implementing the “**My City, My Space: Strengthening Waste Management systems for improved environment and community well-being**” Project in partnership with **Truss Group** and **Blantyre City council** with support from **Tilitonse Foundation**.

WHY THIS PROJECT?

- Weak governance of waste management.
- Poor knowledge, attitudes and practices on waste management by the general public;
- Inadequate waste collection and transportation facilities; and
- Limited practices and investments in waste recycling in the city.

Improved waste collection and disposal system at household and municipal level

Map out stakeholders involved in waste management; Engage stakeholders in waste management; and Facilitate establishment of waste collection points

Increased access to information on waste management practices

Conduct KAP survey in urban areas to inform development of the campaign and strategy
Conduct awareness campaigns on the waste management system of the city (My City My Space campaign)

PROJECT PROJECTION

January, 2021 – March, 2022

MWK 135,226,142

PROJECT GOAL

A clean and safe environment free from waste pollution.

PURPOSE

Increased capacity of urban communities to demand and implement safe and sustainable waste management systems and practices

ACTIVITIES

Strengthened law enforcement on waste management

Facilitate review of waste management by-laws;
Orient law enforcement agencies on waste management;
Facilitate dialogue between waste management stakeholders on law enforcement;
Engage government on operationalization of the national waste management strategy; and
Establish and Strengthen pollution reporting mechanisms
